PROFESSIONAL SUMMARY

Result-driven QA Engineer with 2.6 years of experience in Manual and Automation Testing of Web, Mobile, and SaaS applications. Experienced in Customer Relationship Management (CRM) and Inventory Management System (IMS) products. Proficient in Selenium WebDriver with Java, API Testing using Postman.
Hands-on experience in Functional, Regression, Integration, Smoke, Sanity, API Testing, and Database Testing. Skilled in Agile methodology, defect tracking using JIRA, and delivering high-quality software solutions.

WORK EXPERIENCE

Kasper Infotech Pvt Ltd – Noida, UP
QA Engineer | Mar 2025 – Present

• Worked on SaaS-based applications including Customer Relationship Management (CRM) and Inventory Management System (IMS).
• Performed functional, regression, integration, and UAT testing for CRM and IMS applications.
• Performed testing of multi-tenant CRM applications to ensure proper data isolation, role-based access, and tenant-specific configurations.
• Tested CRM modules including Lead Management, Sales Pipeline, Follow-up Reminders, Campaign Tracking, and Role Management.
• Validated IMS modules such as POS Billing, Stock Management, GST Billing, Purchase Orders, Sales Orders, Reports, Customer, Supplier and User Management.
• Performed functional and usability testing of Android applications to ensure seamless user experience and application stability.
• Developed and maintained Selenium WebDriver automation scripts using Java and TestNG for critical business workflows.
• Performed API testing using Postman to validate backend services and integrations.
• Validated backend data stored in MongoDB collections for CRM and IMS applications.
• Collaborated with developers, analysts, and stakeholders to ensure product quality.
• Worked in Agile environment and participated in sprint activities

---

Delta 360 Services Pvt Ltd – Noida, UP
QA Engineer | Dec 2023 – Mar 2025

• Conducted manual and automation testing on web applications.
• Developed and executed automation test scripts using Selenium WebDriver with Java.
• Performed API testing using Postman.
• Tracked and managed defects using JIRA.
• Prepared test cases, test scenarios, and test execution reports.
• Participated in Smoke, Sanity, Regression, Integration, and System Testing.
• Collaborated with development teams to improve software quality and user experience.

PROJECTS

CRM – SaaS Application

• Tested Lead Capture, Sales Pipeline, Follow-up Reminders, Campaign Tracking, and Role Management modules.
• Executed functional, regression, integration, and API testing.
• Automated critical regression test cases using Selenium Driver with Java and TestNG.
• Validated multi-tenant architecture to ensure data segregation and secure access between different tenants.
• Tested tenant-specific configurations, user roles, permissions, and access controls.
• Participated in release validation and defect reporting using JIRA.

Inventory Management System (IMS) – SaaS Application

• Tested POS Billing, Stock Management, GST Billing, Customer & Supplier Management modules.
• Validated Purchase Orders, Sales Orders, Reports, Expenses, and User Management functionalities.
• Automated key business workflows and regression test cases using Selenium.
• Performed functional, regression, integration, and database testing.
• Conducted API testing using Postman.

TECHNICAL SKILLS

• **Manual Testing:** Functional, Regression, Smoke, Sanity, Integration, System Testing
• **Automation Testing:** Selenium WebDriver with Java, TestNG, Maven, Appium
• **API Testing:** Postman, REST API Testing
• **Database Testing:** SQL, MySQL, MongoDB
• **Bug Tracking:** JIRA
• **Development Tools**: Chrome DevTools, Git
• **Programming Language:** Core Java
• **Methodologies:** Agile, Waterfall, SDLC, STLC

SOFT SKILLS

• Strong sense of ownership
• Attention to detail
• Problem-solving mindset
• Team collaboration
• Quick learner
• Adaptability
